THE
RANGECARDOGRAPH

FOR THE USE OF

Infantry & Machine Gunners

Gale & Polden, Ltd.
LONDON ALDERSHOT
SOUTHAMPTON

2/-
21

How to Use the Rangecardograph

Insert the point of a pencil in the holes in the movable scale and draw the semi-circles at 600 yards and 1,000 yards.

Holding the base of the card parallel to the front, move the scale until it points to the object to be used for the setting ray; draw the setting ray, using the scale as a ruler.

Do the same for each range mark, drawing the rays the correct length according to the scale, and using the right side of the scale only as a ruler.

Name each range mark, with its range, and the place of construction in block capitals.

Draw the base line and mark point of construction through the eyelet.

The "RANGECARDOGRAPH" manufactured and sold by GALE & FOLDEN, LTD., ABERN CORNER, LONDON, E.C. 4 - WYLLINGTON WORKS, ALDERSHOT - Also at PORTSMOUTH

This file can be obtained. Price 6d. each.
